

## CREATION OF REHABILITATION CENTRES: AN EFFECTIVE METHOD TO RETURN CAPTURED WILDLIFE TO NATURE

11:30 – 12:45, building B, level 6, conference hall 7

- Experience of different countries in building and operating rehabilitation centres
- Main results of the involvement of rehabilitation centres in the reintroduction of birds
- Prospects for the creation of rehabilitation centres for vulnerable bird species

## HOUBARA BUSTARD: ENSURING BIOLOGICAL DIVERSITY THROUGH RESTORATION OF THE SPECIES IN THE NATURAL ENVIRONMENT

11:30 – 12:45, building B, level 6, conference hall 6

- Current state of the houbara bustard population around the world
- Programme for the restoration of a viable houbara bustard population in the Northwest Caspian region
- Creation of the Bustard Reintroduction and Conservation Centre in the Republic of Kalmykia and the restoration of the houbara bustard in the Republic of Tuva and other Russian regions
- International partnership for the restoration of the houbara bustard population

## SAVE THE FALCONS: RUSSIAN AND INTERNATIONAL NURSERIES PROTECTING THE PRESERVATION OF RARE BIRD SPECIES

13:15 – 14:30, building B, level 6, conference hall 7

- Practices used by different countries for the conservation and restoration of populations of birds of prey
- Operational experience of nurseries and breeding and reintroduction centres
- Key results in restoring natural populations using birds from reintroduction centres

## DIGITALIZATION AND MODERN TECHNOLOGIES TO MONITOR FALCONS AND OTHER WILDLIFE. SUPPORT OF BUSINESS

13:15 – 14:30, building B, level 6, conference hall 6

- Innovative technologies that help to study and monitor wildlife
- Use of modern technologies to prevent a decline in bird populations of the falcon family and a loss of genetic diversity
- The role of business in supporting scientific research and monitoring wildlife, including birds of the falcon family

## PLENARY SESSION 'NATURE CONSERVATION DIPLOMACY: FALCONS – NEW HORIZONS FOR COOPERATION'

15:00 – 16:15, building B, level 5, Maritime Hall

- Successful practices in the conservation of birds of the falcon family
- Range of measures required for the conservation of birds of prey of the falcon family
- Accession of new countries to the Framework Declaration of Intent for the Conservation of the Gyrfalcon Population
